

MIAMI Acute Phase Protein Laboratory

Division of Comparative Pathology • Miller School of Medicine • Phone 800.596.7390 • Fax 305.243.5662 • www.cpl.med.miami.edu

	Case Number (Lab Use Only)
	Owner Name
	Patient Name
	Species/Breed
	Age/Sex
	Collection Date
<i>Patient history including if this is a resubmission:</i>	

✓	Test	Recommended Species	Sample
	Serum Protein Electrophoresis	Any	0.1ml serum
	C-Reactive Protein (CRP)	Canine	0.1ml serum
	Serum Amyloid A (SAA)	Equine, Feline	0.1ml serum
	Haptoglobin (HP)	Any	0.1ml serum

*Several assays have been validated for other species not listed above.
Contact the lab for more information.*

Serum should be allowed to clot and then separated by centrifugation. It is best, even with gel clot tubes, to separate the serum to a transport tube or freezer-type tube for storage and transport. Hemolysis and lipemia will affect these tests so contact the lab before sending these types of samples. FedEx and UPS are preferred for shipping; we do not recommend US Mail.
